Since the inception and design of Canada's Employment Insurance (EI) program, the Canadian economy and labour market have undergone dramatic changes. It is clear that EI has not kept pace with those changes, and experts and advocates agree that the program is no longer effective or equitable. Making EI Work is the result of a panel of distinguished scholars gathered by the Mowat Centre Employment Insurance Task Force to analyze the strengths, weaknesses, and future directions of EI. The authors identify the strengths and weaknesses of the system, and consider how it could be improved to better and more fairly support those in need. They make suggestions for facilitating a more efficient Canadian labour market, and meeting the human capital requirements of a dynamic economy for the present and the foreseeable future. The chapters that comprise Making EI Work

An authoritative life of Edward the Confessor, the monarch whose death sparked the invasion of 1066 One of the last kings of Anglo-Saxon England, Edward the Confessor regained the throne for the House of Wessex and is the only English monarch to have been canonized. Often cast as a reluctant ruler, easily manipulated by his in-laws, he has been blamed for causing the invasion of 1066—the last successful conquest of England by a foreign power. Tom Licence navigates the contemporary webs of political deceit to present a strikingly different Edward. He was a compassionate man and conscientious ruler, whose reign marked an interval of peace and prosperity between periods of strife. More than any monarch before, he exploited the mystique of royalty to capture the hearts of his subjects. This compelling biography provides a much-needed reassessment of Edward's reign—calling into doubt the legitimacy of his successors and rewriting the ending of Anglo-Saxon England. Our Mutual

You may have had near misses, but fortune smiled and you had few accidents. Measuring accidents provides one segment of the safety picture, but it is a far cry from evaluating and creating overall safety. Rather than giving you accident statistics and the admonition "you need a program," Agricultural Safety shows you how to "do" safety. The book sets forth the steps you need to take to make safety a part of your everyday farming operation, such as: - Identification of key safety activities that will lead to better control of losses - Setting standards and guidelines for doing that work - Measurement of the effectiveness of the work being done in accordance with the standards and guidelines - Evaluating program progress based upon measurements taken - Correcting deficiencies based on the evaluation(s) The author covers topics such as machinery operation, maintenance and repair techniques, fire loss control techniques, the safe handling of agrochemicals, and techniques involving the handling of animals. He provides you with a step-by-step manual for the procurement, handling, and storage of agrochemicals and pesticides as well as a guide to personal protective equipment and reviews safety for "third parties" and the posting of property and public warnings. To achieve safety, the work of safety must be done, measured for efficiency, evaluated in real-world terms, and corrective action taken, as needed, in a timely manner. Many books on safety provide a list

of dos and don'ts. Agricultural Safety discusses the ways and means of managing and controlling accidental loss and shows you how to build safety into your operation. The collection demonstrates the ways in which established traditions and scholars have come together under the umbrella of linguistic ethnography to explore important questions about how language and communication are used in a range of settings and contexts, and with what effect. Completed series: Kindle edition: 11-chapters set; paperback: 1-volume set.

Translating Theory into Practice Globalizing Intercultural Communication: A Reader introduces students to intercultural communication within the global context, and equips them with the knowledge and understanding to grapple with the dynamic, interconnected and complex nature of intercultural relations in the world today. This reader is organized around foundational and contemporary themes of intercultural communication. Each of the 14 chapters pairs an original research article explicating key topics, theories, or concepts with a first-person narrative that brings the chapter content alive and invites students to develop and apply their knowledge of intercultural communication. Each chapter 's pair of readings is framed by an introduction highlighting important issues presented in the readings that are relevant to the study and practice of intercultural communication and end-of-chapter pedagogical features including key terms and discussion questions. In addition to illuminating concepts, theories, and issues, authors/editors Kathryn Sorrells and Sachi Sekimoto focus particular attention on grounding theory in everyday experience and translating theory into practice and actions that can be taken to promote social responsibility and social justice. Passion is a pervasive concept in the work domain. Workers aspire to be passionate in the hope of finding meaning and satisfaction from

their professional life, while employers dream of passionate employees who will ensure organizational performance. Does passion for work matter? Does passion invariably bring about the anticipated positive outcomes or is there a darker side to passion for work that can also lead to negative outcomes for individuals and organizations? The goal of this book is to address these issues. This volume reviews major theories of work passion, focusing specifically on the dominant theory: the Dualistic Model of Passion. This theory distinguishes between two types of passion—harmonious and obsessive—and their associated determinants and consequences. This volume provides a comprehensive understanding of passion for work by addressing the origin of the concept and its theoretical issues: how can passion for work be developed, what are the consequences to be expected at the individual and organizational levels, and how can passion for work shed new light on contemporary issues in the workplace. *Passion for Work: Theory, Research, and Applications* synthesizes a vast body of existing research in the area, provides insights into new and exciting research avenues, and explores how passion for work can be cultivated in work settings in order to fulfill both workers' and employers' hopes for a productive and satisfying work life.
